Report on Komoot pioneers and experts in Poland

My report is based on data available on page: https://www.komoot.com/pioneers/club

I have decided to prepare a short report on Komoot pioneers and experts in Poland.

I used R language and web-scraping techniques to exact information from Kommot page about polish pioneers and experts in an automated way.

In the table below, we have data about usernames and number how many pioneer and expert badges do they have.
